Subject: Conditional Approval of Rail Loadout Asphalt and Concrete, Canyon Fuel Company, LLC, Skyline Mine, Permit C/007/0005, Task ID #3545

Dear Mr. Sorenson:

The above-referenced amendment is conditionally approved upon receipt of 8 clean copies prepared for incorporation. Please submit these copies by July 15, 2010. Once we receive these copies, final approval will be granted, at which time you may proceed with your plans.

This amendment is conditionally approved, conditional on the Permittee making three minor corrections – unrelated to this amendment – to Drawing 3.2.1-3 with the final clean copies.

Area 20 is discussed in Section 3.2 of the MRP along with Areas 21, 22, and 22a, but Area 20 is not identified on Drawing 3.2.1-3; the Permittee needs to indicate Area 20 on Drawing 3.2.1-3. This drawing contains a note referring to page 2-26a of the MRP; page 2-26a is no longer in the MRP and the Permittee needs to remove this note. The Permittee also needs to show on Drawing 3.2.1-3 the location of the silt fence along the east side of the SR 96 right-of-way, adjacent to the railroad Loadout Building.

A stamped incorporated copy of the approved plans will also be returned to you at that time, for insertion into your copy of the Mining and Reclamation Plan.

If you have any questions, please feel free to call me at (801) 538-5325.

Sincerely,

Daron R. Haddock
Permit Supervisor
